Front-End Web/Mobile Developer | Buenos Aires, Argentina

With over one year of experience as a Software Developer, specializing in professional front-end development for web and mobile applications, I have successfully completed numerous Front-End development projects. My efforts have resulted in a 40% improvement in product delivery timelines and a 25% increase in web performance.

PROFESSIONAL EXPERIENCE

FrontEnd Architect

Buenos Aires, Argentina

- DTSky Library:** Developed and optimized a comprehensive React.js component library named DTSky, deployed as a [NPM package](#) and accompanied by a fully-fledged documentation [DTSky website](#), created to improve modern design implementation by **50%** faster. This library is designed to streamline the development process for other developers by providing a suite of elegant components.
- Front-End Projects:** Designed and developed numerous high-quality front-end projects employing advanced technologies such as React.js, Next.js, Astro.js, TailwindCSS, React Native, Expo, etc. These projects demonstrate proficiency in creating top-tier designs and improve user interface responsiveness by **40%**, with strong SEO practices integrated, and can be explored further in [my portfolio](#).
- Naruto API:** Created and implemented a robust API using Node.js and Hono.js, providing detailed information about the series Naruto. This API is utilized by numerous developers, enhancing data access and application development efficiency by **30%**.
